PLANTA DE VIGOTAS PRÉ-MOLDADAS

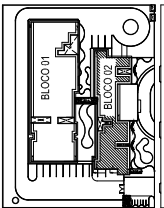

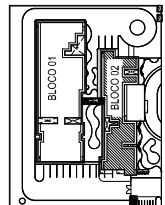

Figure 1 displays a grid of 48 plots showing the evolution of the number of nodes in various VZV strains over time. The plots are arranged in a 6x8 grid. Each plot has 'Time (days)' on the x-axis (0 to 100) and 'Number of nodes' on the y-axis (0 to 100). The plots show the number of nodes in different strains (VZV-1 to VZV-8) over time. The plots are labeled with the strain name and the number of nodes. The plots show the number of nodes in different strains (VZV-1 to VZV-8) over time. The plots are labeled with the strain name and the number of nodes.
